EDUCATION

Fathima High School

Degree in SSC

Percentage: 69.05%

Sewri, Mumbai

July17 - May18

Vidyalankar Polytechnic

Computer Science Diploma

Percentage: 86.05%

Wadala, Mumbai

July18 - May21

Saraswati College of Engineering

Computer Science Engineering Artificial Intelligence and Machine learning Bachelor

CGPA: 7.72

Kharghar, Mumbai

July21 - May24

EXPERIENCE

LTIMindtree | Intern

Mumbai, India | July 2023 - Sept 2023

Contributed to the development of an internal project using Core Java, enhancing system efficiency and functionality

I have done the RIW Automation project, automating project assignments and scheduling by extracting data from Excel sheets and sending notifications to managers.

IsmartFacitech | FrontEndDeveloper

Mumbai, India | August 2024 - Present

Inspection Checklist Web App :

- I designed a responsive website for Raymond Lifestyle that streamlines **Inspection, PPM, MST** and **Breakdown** visits to enhance client satisfaction. Key features include QR codes for each client's site, allowing technicians to scan and submit forms with necessary details.
- An approval system was implemented, requiring initial approval from ISmart and final approval from the client, after which an Excel report can be generated for billing.
- The project includes a calendar feature for the operations team to track tasks, and RESTful APIs for CRUD operations were developed using Spring Boot and Java, with MySQL as the database.

ERP

Survey

- Created user-friendly survey form to gather the data related to buildings, carpet-area, surface and other relevant field. The data of the respective materials and the points has been collected and managed in the input fields.
- Implemented real-time calculations for carpet and surface areas to provide instant feedback to users. Contributed to a project aimed to optimizing resource management for businesses, enhancing decision-making through accurate data collection.
- **Technologies used:** React, JavaScript, HTML, CSS.

Commercial

- All collected data from the **Survey Form** and the requirement of user's information makes a Quotation for the client

SKILLS

Programming Languages: Java, JavaScript, Tailwind, SCSS
Libraries/Frameworks: ReactJs, Bootstrap, node.js, mongoDB
Tools / Platforms: Git
Databases: SQL

CERTIFICATIONS

- Java Course - Mastering the Fundamentals - **Scaler**
- DBMS Course - Master the Fundamentals and Advanced Concepts - **Scaler**
